RWM250

Heat and smoke

Our RWM250 not only reports smoke, but also excessive heat.

Especially in kitchens, rooms with open kitchen areas and the like, our ABUS RWM250 is a sensible purchase: The sensor inside constantly measures the temperature and reports whether, for example, the pan or the toaster have caught fire. In the event of a fire with only a small amount of smoke, the smoke alarm also sounds a loud alarm. The unit is certified by the KRIWAN test centre. It is mounted on the ceiling by means of an adhesive strip.

Technologies

- Q-mark certified by KRIWAN TESTZENTRUM
- Certified according to EN14604:2005/AC:2008
- Extended test according to vfdb14-01
- Made in Germany
- Alert for smoke + heat
- 3V lithium battery, solid-state, 12-year battery life
- Quick and clean assembly without drilling
- Dimensions: 10,5 cm diameter, 4,0 cm height
- 88 dB alarm
- CE according to 1772-CPR-150086

Operation and use

- Recommended for bedrooms, children's rooms and halls

Subject to technical modifications. We assume no liability for mistakes and printing errors. © ABUS 11/2026

- Can also be used in kitchens
- Also suitable for recreational vehicles (e.g. mobile homes)
- May also be used in small businesses, provided that no grinding, gas, welding or sawing work is regularly carried out. This is because fine dust, exhaust gases and extreme temperature fluctuations could trigger false alarms.
- Tip: Check the functioning every four weeks

Variants

- Finish: pure white

Technical data - RWM250

Battery – Permanently installed	Yes
Battery – Type	with fixed 3V lithium battery
Weight	176 g
colour	pure white
EAN	4003318093869
