

COMPACT, LIGHTWEIGHT AND HANDY

Our TL-517 torch provides light in the dark with high-quality LED lights

Ideal for the handbag, the backpack or the glove compartment in the car or camper: Our TL-517 torch ensures that you can find your way in the dark or immediately retrieve dropped items. Practical: It can be put down anywhere without rolling off the table, bonnet or other smooth surfaces because of its square shaft. The red light function is useful for long journeys or flights, for example, if you do not want to disturb fellow passengers: This allows you to relax and continue reading without disturbing others with too bright a light.

Technologies

- Lumen: 450
