

83TIIB/50 0 without cylinder

SECURITY MADE EASY

The 83TI 0 TITALIUM™ owes its light weight and robustness to the special aluminium TITALIUM™.

Do you be on the safe side and prefer to double-secure your tools in the garden shed without having to carry a whole bunch of keys? This padlock will help you to do this. Flexible and keyed alike

The interchangeable cylinder makes it possible for you to use the lock keyed alike. If you secure the door, toolboxes and tool cabinets with the keyed-alike variant, one key is sufficient for all locks. The cylinder can even be adapted to existing bittings.

For outdoor use on gates and barriers, the 83TI 0 is equipped with a stainless steel shackle. To further increase protection against the weather, a weather protection cap for the cylinder is optionally available.

The 83TI 0 TITALIUM™ proves that security can be light and flexible.

Technologies

- TITALIUM™ lock body – the special aluminium ensures high security with low weight
- Stainless steel shackle and specially coated lock body for extremely high corrosion resistance
- Double bolted locking mechanism increases the security of the lock
- Automatic locking: pressing down the shackle locks the lock automatically – you don't need a key for locking
- Rekeyable: the cylinder can be exchanged and thus also adapted to existing bittings
- Cylinder protection cap against moisture and dust optionally available

83TIIB/50 0 without cylinder

Seite 2 von 2

- Shackle can be exchanged within seconds
- SSF014 Class 2 / EN12320 Class 3
- Version "0": lock body accepts commercially available oval cylinders

Operation and use

- Protection of items with a higher value and with a high risk of theft
- Suitable for use on grilles, doors, gates, cabinets, toolboxes, cellar windows, sheds, switchgear, barriers, among other things
- Ideal for extreme weather conditions (e.g. in sea and harbour areas, for securing on vehicles and boats/ships in outdoor use)
- Extremely flexible: can be adapted to a wide range of requirements in a short space of time

Variants

- Size: 50 mm
- Available in three shackle lengths: 28 mm, 50 mm & 75 mm vertical shackle clearance

Technical data - 83TIIB/50 0 without cylinder

Depth e	27,5 mm
Height f	86 mm
