Moventor 2.0 MIPS metallic copper M

SAFETY ON STEEP TRAILS

Steep climbs, high-speed racing, all-day adventures: "Down-country" is action-packed, which means the demands on equipment also increase.

Down-country is all about going up fast, down fast and repeating. The Moventor 2.0 MIPS is virtually perfectly for the demands of mountain bikers. The MTB helmet is lightweight, well ventilated and has a deeper fit that gives more protection at the back of the head. When the trail points downwards, the ten air inlets and nine air outlets provide good ventilation. In addition to all the well thought-out features for off-road use, the MIPS model has impact protection. This is intended to protect the brain, especially if the cyclist's head hits the ground at an angle during a fall. In a fall, the brain is exposed to strong rotational movements that can lead to severe brain injuries. With MIPS, a movable low-friction plastic shell is integrated into the helmet to ensure that rotation is reduced and the head is better protected.

Technologies

- Lower edge protection: polycarbonate (PC) outer shell covers the lower edge of the helmet and protects against scratches, impacts and signs of wear and tear
- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Mips layer: thin plastic shell located between the inner padding and the energy-absorbing shell of the helmet to counteract rotational forces in the event of a fall
- Reflector Sticker: for better visibility in the dark
- Height-adjustable peak: the position of the peak can be adjusted thanks to locking positions to provide optimum

Moventor 2.0 MIPS metallic copper M

protection from hanging branches and sunlight
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Trivider™: particularly flat divider with fixed positioning of the straps to prevent unintentional adjustment
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Push-in buckle: for safe and practical handling, the straps are fitted with a classic chin lock (three-pronged connection) for opening and closing
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection

Technical data - Moventor 2.0 MIPS metallic copper M

Additional safety features	Reflector Sticker
Chin buckle	Push-in buckle
Finish	shiny
Forced Air Cooling	No
Fullface	No
Head size	54-58 cm
Headring	Half ring
Helmet type	MTB helmet
Light	No
Lower edge	Yes
Mips	Yes
Peak	height adjustable peak
Ponytail Fit	Yes
Removable pads	Yes
Size	M
Smart - Crash Detection	optional
Suitable for	Adults
Visor	No
Washable pads	Yes
Weight	345 g
backlight	No
color of facets	gold
design color	metallic copper
EAN	4003318655128
