

Smiley 3.0 rose princess S

MORE PROTECTION FOR LITTLE ONES

Our best-selling helmet for small children just got even better! With a completely revised outer shape and adapted features, the Smiley 3.0 enters a new era.

The popular kids helmet accompanies children on their first attempts at riding - whether on a balance bike, a tricycle or their first own bike. The deep fit and visor-like front edge offers additional protection for a child's head. The helmet can be easily adjusted to the circumference of the head via the height-adjustable adjustment system - both in width and height at the back of the head. Another advantage of the height-adjustable adjustment system is for children with long hair, as this can make room for a ponytail. This stops the adjustment wheel from pressing annoyingly on a ponytail. The helmet is also made more comfortable to wear by a thick chin pad.

With 16 different themes, it'll be hard to choose which Smiley 3.0 should be part of your family. The shiny helmets are available with child-friendly patterns as well as in solid colours. With so much to choose from, every boy and girl will find a head guard they love to wear.

Technologies

- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Reflector Sticker: for better visibility in the dark
- Bug Mesh: keeps flies and other bugs off your head without messing with the helmet's ventilation
- Rear Light (optional): Light for the rear of the helmet for better visibility in road traffic – can be purchased as an accessory and is not included in the scope of delivery

Seite 2 von 2

- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Flap Divider™: strap divider for individual adjustment of the straps below the ears – with clamp fastener to fix the set position
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Push-in buckle: for safe and practical handling, the straps are fitted with a classic chin lock (three-pronged connection) for opening and closing
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection
