WALL BRACKET FOR SPHERICAL DOME CAMERAS

Position your cameras perfectly!

With this wall mount, you can attach spherical dome cameras to the wall in the correct position.

Its robust aluminium construction ensures a long service life with high weather resistance. Its compact size (dimensions: 120 x 184 x 232 mm) makes it the ideal solution for mounting in areas with limited space. Thanks to the internal cable routing, the wall bracket can be installed in a space-saving manner and without annoying cables. At the same time, the connecting cable of the camera is protected from the weather or moisture, damage and tampering.

The wall bracket is compatible in shape and colour with the IP spherical dome cameras of the IPCB54611B and IPCS58611A series (and identical models). In relation to its load capacity of up to 4.5 kg, its own weight is only 0.7 kg, which makes installation and overhead mounting much easier.

Technologies

- Internal cable routing possible
- Sturdy aluminium construction for indoors and outdoors
- In different colours

Technical data - Wall Mount Ball Dome

Colour	white
Compatible with	IPCB54511A, IPCB54511B, IPCB58511A, IPCB58511B, IPCS54511A, IPCS54511B
Depth	232 mm
Dimensions	120x184x232 mm
Gross weight	1.05 kg
Height	184 mm
Housing material	aluminum
Load capacity	4.5 kg
Net weight	0.7 kg
PSTI conformity needed	No
Product group	Accessories
width	120 mm
