

SIMPLY SAFE

The frame lock offers good basic protection for your bicycle and is easy and convenient to use

Do you want your bike security to be quick and simple? Then the Frame Lock Protectus 5000 is just the thing for you. The frame lock has a 9mm shackle which, just like the housing and structural parts of the locking mechanism, is made of specially hardened steel. The Protectus 5000 Frame Lock is particularly suited to securing entry-level bicycles and offers good protection where there is a low risk of theft.

Technologies

- 9 mm thick locking shackle
- The shackle, the case as well as supporting elements of the locking mechanism are made of special hardened steel
- ABUS Push'n Lock the patented closing mechanism for easy attachment of accessory
- Protection against accidental locking whilst on the move
- ABUS automatic cylinder with user-friendly reversible key
- Two keys are supplied in the scope of delivery

Operation and use

- Good protection at low theft risk
- Recommended for the protection of low-range bicycles

Tips

- Frame locks are a convenient protection against unauthorized use of the bicycle
- Security is significantly enhanced through the connection options 5000 Cable and 5000 Steel-O-Chain™
- The use of a second lock is highly recommended
- The lock is available in two sizes and two colours
