SAFE ON THE ROAD

Here we go! Hit the streets with the Lumino Reflex Belt. Quickly slipped on, it fits snugly around the body and ensures excellent visibility in road traffic.

If you are on your bike or with your dog, jogging or walking, it is essential to be highly visible to motorists. With the Lumino Reflex Belt, you are. The one centimetre wide, fully reflective silver strip lights up as soon as light hits it. In addition, the yellow material ensures excellent visibility during the day. You will be seen at a distance of 150 metres at night and 100 metres during the day. The high-quality material used is UV-resistant and shines even after years of use. The reflector belt is size-adjustable at four points and is therefore suitable for both children and adults. Thanks to the four adjustment points, the Reflex Belt fits perfectly over winter jackets and T-shirts alike. At the same time, its airy design allows the body to breathe. The conveniently small pack size makes the belt very easy to stow away and an ideal companion when travelling.
