Pedelec 1.1 pearl white M

STAY SAFE AND STYLISH IN ROAD TRAFFIC

Modern city life needs a helmet to match. Just like the Pedelec 1.1 - a combination of comfort and protection of the highest quality.

Reaching your destination without traffic jams, no annoying search for a parking space and doing something for your own health - the bicycle is simply part of a modern urban lifestyle. Just like the matching helmet. It should protect, be practical and above all, comfortable.

The Pedelec 1.1 easily meets these high demands. With its numerous adjustment options, it adapts optimally to any head shape. And its integrated tail light offers additional passive safety in road traffic.

Technologies

- Lower edge protection: polycarbonate (PC) outer shell covers the lower edge of the helmet and protects against scratches, impacts and signs of wear and tear
- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Reflector Sticker: for better visibility in the dark
- Bug Mesh: keeps flies and other bugs off your head without messing with the helmet's ventilation
- Rain Cap: rain cover integrated into the helmet that can be pulled out for protection in bad weather
- Clip-on Rear Light: attaches to the back of the helmet and ensures greater visibility
- Two different light modes (Rear Light): Steady for continuous light and Flash for brightly flashing light in at short intervals

Pedelec 1.1 pearl white M

- Operating time per mode in h (min.): depending on the weather conditions and type of use, the available usage time of the light is at least 12 hours in continuous mode and in flashing mode at least 24 hours
- Clip on peak: removable peak attached with pins to protect against sunlight
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Flap Divider™: strap divider for individual adjustment of the straps below the ears – with clamp fastener to fix the set position
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Push-in buckle: for safe and practical handling, the straps are fitted with a classic chin lock (three-pronged connection) for opening and closing
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection

Technical data - Pedelec 1.1 pearl white M
