

KeyGarage™ 797 FLEX with cable

Seite 1 von 2

SECURE, FLEXIBLE, ALWAYS READY

The KeyGarage™ 797 FLEX is the mobile key box for every use case.

Hiding keys under the doormat or flowerpot is a thing of the past. With the KeyGarage™ 797 FLEX, access to buildings, holiday flats or rental vehicles can be controlled securely and flexibly - with space for up to 20 keys or 14 plastic cards, the KeyGarage™ is suitable for a host of different situations. Thanks to the individually adjustable 4-digit number code, you decide who gets access. This means you can pass on the code quickly and easily if frequently changing people need access.

The 10 mm thick steel cable provides further adaptability: it allows the KeyGarage™ to be flexibly attached to fences, railings or handles - perfect for temporary use. The cable can be secured around objects with a circumference of up to 50 cm or up to a maximum distance of 20 cm. The plastic coating also prevents scratches on sensitive surfaces. The robust metal housing and die-cast zinc locking flap make the KeyGarage™ particularly stable and secure. The number wheels can also be covered by a practical protective flap with a sliding mechanism. We recommend using the KeyGarage™ 797 FLEX in a protected outdoor area or indoors.

Technologies

- Large, sturdy metal housing for secure storage of keys and plastic cards
- Zinc die-cast locking flap with number wheels
- Individually adjustable 4-digit code
- Protective flap with sliding mechanism
- 10 mm thick, plastic-coated steel cable for attachment

KeyGarage™ 797 FLEX with cable

Seite 2 von 2
