Hyban 3.0 powder green M

THE CITY ALL-ROUNDER

Whether you're out shopping, on your way to work or university or on a relaxed weekend tour - with the Hyban 3.0, you'll be safe on the road and make a stylish statement at the same time.

This city helmet impresses with its sophisticated, timeless design. Fashionable colours emphasise the clear lines and create a harmonious, head-flattering silhouette. The attachable peak protects your eyes from direct sunlight and gives the helmet a sporty touch. And if you want even more comfort, simply swap it for the separately available, height-adjustable visor - either clear, tinted or self-tinting. Modularity that makes your helmet suitable for all weather conditions. Functionality with comfort The new ABS lightweight shell is noticeably lighter than classic hard shells and still offers certified safety at the highest possible level. 11 ventilation openings ensure pleasant air circulation even on warm days. Bug mesh on the front air inlets keeps flies and other insects out without impairing ventilation The magnetic FIDLOCK fastener allows you to open the chin strap effortlessly and with one hand, even when wearing gloves. Helmet on, helmet off: ready to go in seconds or relaxed at your destination. Visible on the road The rechargeable rear light with 10 LEDs increases your visibility at dusk and in the dark. Choose between two light modes to ensure that you are noticed early on. Thanks to the magnetic holder, you can easily remove the rear light, charge it using the USB-C cable and fit it again just as easily. The separately available ACE rear light with 30 LEDs and four light modes offers even more luminous power. An upgrade for increased presence in traffic. For your individual style

The clever cut-out in the height-adjustable adjustment system ensures a comfortable fit - even with long hairstyles such as ponytails, buns or plaits.

Available in fashionable pastel colours and with a gloss or matt finish: choose your look and make a personal statement.

Ready for your next ride?

Technologies

- Reflector Sticker: for better visibility in the dark
- Rechargeable, magnetic Rear Light: is attached to the back of the helmet using magnets and ensures greater visibility – can be charged with USB-C charging cable
- IP44: protection class that certifies protection against solid foreign bodies larger than 1 mm and against splash water for electronic products such as lights
- Two different light modes (Rear Light): Steady for continuous light and Flash for brightly flashing light in at short intervals
- Operating time per mode in h (min.): depending on the weather conditions and type of use, the available usage time of the light is at least 4 hours in continuous mode and in flashing mode at least 22 hours
- Battery charging time (light): the charging time until the battery is fully charged is approximately 1 hour
- Clip on peak: removable peak attached with pins to protect against sunlight
- Height-adjustable visor (optional): available as an accessory – protects the eye area from wind, rain and insects and can be adjusted to different positions
- Trivider™: particularly flat divider with fixed positioning of the straps to prevent unintentional adjustment
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Magnetic buckle: the straps are fitted with a high-quality, magnetic FIDLOCK buckle to enable the chin buckle to be opened with one hand, even when wearing gloves
- Hard shell application: production process in which the outer, injection-moulded shell made of hard plastic is placed over the shock-absorbing rigid foam, thus ensuring a high level of robustness and protection
- EPS + ABS lightweight shell: combination of EPS and thin-walled ABS shell – enables a more robust construction with the same weight

Operation and use

- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Bug Mesh: keeps flies and other bugs off your head without messing with the helmet's ventilation
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
