ROBUST, SOLID, LIGHT

Secure items at low risk of theft with our 54 TITALIUM™ padlock.

You can secure bags, caskets, strongboxes, lockers or toolboxes very well against theft with our padlock 54 Titalium. The lock body is made of solid TITALIUM™ special aluminium, which makes it particularly lightweight, yet robust. The hardened steel shackle provides good basic security because it makes attacks - for example by a bolt cutter or crowbar - more difficult.
