

HIGH OPERATING COMFORT

Secure your front doors with this easy-to-use additional door lock.

Your front doors should always be adequately secured. With this additional door lock, you increase protection against burglars and get a product that is easy to operate. The lock is locked from the outside with a profile key, from the inside you operate it by means of a turning knob. It is robustly made and sits firmly after assembly. Inside the lock is a quality 5-pin cylinder. The additional lock effectively protects against prying open the door on the closing side. Two keys are included in the scope of delivery.
