

TRUST THE ORIGINAL

Diskus®: get the real thing, only from ABUS.

For securing doors, gates, cupboards, barns, cellars and more - and ideal in conjunction with the matching 140 hasp. Due to its round shape, the Diskus is particularly protected from being hammered or sawn open and offers virtually no attack surface for attempts to break it open. The seam that holds the two stainless steel shells together is hand-welded on every Diskus® that leaves our production facility in Germany. This means that the two halves cannot simply be broken apart. In addition, the precision pin cylinder with anti-pick pins ensures that the locking cylinder cannot be easily broken open.

Technologies

- Original Diskus® design: 360° protection
- Diskus® Deep-Welding Technology - maximum strength
- Hardened steel shackle
- Precision pin tumbler cylinder with anti-pick pins
- Key retaining: locking only with the key (lock retains key until locked)
- Made in Germany

Operation and use

- To secure valuables / goods of greater value or at a high risk of theft
- To secure doors, gates, cupboards, cellar doors etc.
- Ideally used with ABUS Diskus® Hasp 140: virtually impossible to attack shackle

Technical data - Diskus® 220/70

Depth e	27 mm
Height f	70 mm
Horizontal clearance b	19,5 mm
Keyed alike	No
