STEEL WEATHERPROOF 83 SERIES®

Weatherized Steel

The Weatherproof 83 Series padlocks come with a fully weather protected body and rubberized shackle seals to keep water and dirt from entering through the top of the padlock. The cylinder is protected from the harsh outdoor elements by an easy-to-use weather cap. The solid steel lock body provides superior protection from physical attack. These locks are the perfect solution for outdoor security.

Key Features

- Shackle and body made of hardened steel with NANO PROTECT™ coating for extra corrosion resistance
- Patented "Z-bar" converts key-retaining to non-key-retaining and vice versa in seconds
- Patented "Pinning Window" for simple rekeying
- Durable weather cover with drainage system
- 83WP/53: shackle can be changed in seconds
