# HEAVY DUTY COMBINATION

# 190 SERIES

## Convenient and Secure

ABUS combination padlocks offer a great level of security with the convenience of keyless entry. 190 Series padlocks are made of solid hardened steel. The precision locking mechanism has special manipulation protection with a resettable 4-digit combination code. The shackle guard on the 190CS protects the shackle from attacks.

## Key Features

- Solid hardened steel jacket
- Precision locking mechanism with special manipulation protection
- Shackle guard protects shackle from attacks
- 4-digit resettable code for thousands of combinations and high security
