

RELIABLE SECURITY

Our Combination Lock 165 is sturdy and consists of a brass lock body.

For securing various items such as bags, suitcases, valuable boxes, lockers, cabinets, tool boxes, basement windows, switchgear, and more, we highly recommend our combination lock 165. The lock body is crafted from brass, while the shackle is made of steel. The shackle's flexibility makes it convenient to set number combinations.

Opt for the 165/20 and 165/30 sizes when securing objects of low value or items at a low risk of theft. For objects of medium value or items at a moderate risk of theft, the 165/40 size provides the perfect level of security.

Technologies

- Brass lock body
- Steel shackle
- 165/20 and 165/30: individually resettable 3-digit code
- 165/40: individually resettable 4-digit code
- Spring loaded shackle for a better setting of the opening code

Use and application

- 165/20 and 165/30: To secure valuables / goods of lesser value or at a low risk of theft
- 165/40: To secure valuables / goods of medium value or at an average risk of theft
- To secure bags, suitcases, jewel boxes, cash boxes, cupboards, lockers, tool boxes, basement windows, switchboards, etc.
