

LIGHTWEIGHT AND FLEXIBLE

The 83AL Titalium Padlock: Enhanced Security with Replaceable Cylinder.

Elevate your security measures for valuable or larger items prone to theft by opting for our 83AL Titalium padlock. It's the perfect choice for safeguarding grilles, doors, gates, cabinets, toolboxes, basement windows, switchgear, and barriers. The 83AL offers the flexibility of combining multiple lock cylinders with the same key, streamlining your access.

Crafted from lightweight TITALIUM™ special aluminum, the lock body ensures durability, while the shackle, coated with NANO PROTECT™, is made from hardened special steel. Choose between two locking methods: the automatic locking mechanism by pushing down the shackle, or the key-retaining variant, preventing accidental locking. Whichever you choose, the 83AL Titalium Padlock empowers you with optimal security solutions.

Technologies

- Lock body made from TITALIUM™ special aluminum - high security with low weight
- Hardened special steel shackle with NANO PROTECT™ coating for very high corrosion resistance
- Patented Z-Bar" for 2 in 1 function: converts key retaining to non-key retaining and vice versa in seconds"
- Cylinder can be taken out and can be re-keyed to match an existing key
- RK: Can be keyed into many popular security keyways
- Version "S": Designed to accept Snowman-cylinders; cylinder not included

Use and application

- To secure valuables / goods of greater value or at a high risk of theft
- To secure gratings, doors, gates, cupboards, tool boxes, cellar windows, sheds, switchboards, barriers, etc.
- Extremely flexible: can be adapted to different requirements in a short time – thanks to its interchangeable cylinder and the possibility to quickly change the shackle

Variants

- Sizes: 1 37/64, 1 49/64", 1 31/32""
- Colors: red, blue, yellow, green, silver, black
