MoTrip MIPS shiny white M

FOR OFF-ROAD ADVENTURES

An ideal off-road helmet for the first rides on uneven terrain. The MoTrip MIPS promises even better safety on bike rides over hill and dale thanks to additional impact protection.

The MTB helmet's deep fit and MIPS impact protection ensure the best possible head protection: In the event of a fall, the MoTrip MIPS can reduce the risk of serious head injuries. To make off-road rides more comfortable, the helmet is also equipped with the MTB adjustment system. This allows you to individually adjust the helmet size and conveniently make room for a ponytail with the height-adjustable wheel at the back of the head. Start your next off-road adventure with the lightweight and well-ventilated MoTrip MIPS or wear it for everyday commuting.

Technologies

- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Mips layer: thin plastic shell located between the inner padding and the energy-absorbing shell of the helmet to counteract rotational forces in the event of a fall
- Reflector Sticker: for better visibility in the dark
- Height-adjustable peak: the position of the peak can be adjusted thanks to locking positions to provide optimum protection from hanging branches and sunlight
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Flap Divider™: strap divider for individual adjustment of the straps below the ears – with clamp fastener to fix the set position

MoTrip MIPS shiny white M

- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Push-in buckle: for safe and practical handling, the straps are fitted with a classic chin lock (three-pronged connection) for opening and closing
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection

Technical data - MoTrip MIPS shiny white M
