Introducing our 90RK/50 TITALIUM™ padlock, designed to deliver unbeatable protection rain or shine. This padlock boasts a lightweight yet rugged build, complete with corrosion protection.

Crafted from TITALIUM™ special aluminum, the solid lock body offers exceptional durability. The precision pin cylinder ensures uncompromising security, while the stainless steel shackle stands up to the harshest weather conditions.

Technologies

- Lock body made from TITALIUM™, a special aluminum alloy: high security at low weight
- Shackle made from high quality stainless steel, double bolted: high resistance against pulling and torsion
- With integrated shackle guard to protect against bolt cutter attacks
- Extreme corrosion resistance
- Precision pin cylinder
- Interchangeable cylinder: if required, the lock can also be adapted to existing locks
- Key retaining: key is needed for locking (lock retains key until locked)

Use and application

- To secure valuables / goods of greater value or at a high risk of theft
- Ideal for severe weather conditions (e.g., in sea and port areas, for securing vehicles and boats in outdoor use)
