

SET SAIL AGAINST RUST!

The ABUS 70IB Aqua Safe marine padlock not only safeguards your valuables against theft but also shields the surfaces of boxes, equipment, machinery, and more from unsightly scratches.

Its exceptional weatherproof design begins with a solid brass lock body encased in a gentle plastic shell to protect adjacent surfaces. This is crucial, especially at sea, where changing weather conditions can cause a padlock to sway.

The hardened steel shackle is coated with an impact-resistant synthetic layer for added durability. Moreover, a special protective cap acts as a barrier, ensuring that splashing water and dirt stay far away from the locking mechanism. This makes our padlock the ideal choice for securing your valuables outdoors, whether you're near the sea or anywhere else.

Embrace rust-free adventures with our Aqua Safe 70IB - your trusty companion for all your outdoor security needs, no matter the elements.

Technologies

- Solid lock body made from brass
- Stainless-steel shackle for extra-special corrosion protection
- Sealed lock body with special protective cap and drainage channels to protect the locking mechanism from water and dirt
- Shock-absorbing plastic casing protects sensitive surfaces
- Double bolted

- Precision pin cylinder
- Paracentric key profile for increased protection against manipulation
- Inner components made from rust-free materials

Use and application

- For medium-security requirements under extreme weather and environmental conditions
- Ideal for securing vehicles and boats

Technical data - 70IB/45HB63

Depth e	1 5/64 inch
Height f	4 13/32 inch
