

A WEATHER RESISTANCE MARINE LOCK

Introducing the Brass Padlock 70: Unyielding Security in Challenging Climates.

Our robust brass Padlock 70 guarantees unwavering security for your valuables, whether they're chained, fastened to doors, gates, cabinets, lockers, toolboxes, sheds, and beyond. This padlock thrives even in the harshest weather and environmental conditions. It's your go-to solution for safeguarding medium-value items or possessions facing moderate theft risks.

Boasting a solid brass body, the Padlock 70 is fortified against intrusion by dirt and splashing water, thanks to a special protective cap and drainage channels. Its interior components are crafted from corrosion-resistant materials. The steel shackle, encased in impact-resistant plastic, not only shields adjacent surfaces but also offers resilience against swings and impacts, crucial for marine environments, where weather can be unpredictable.

Technologies

- Solid lock body made from brass
- Shackle made from hardened steel with plastic sleeve
- Sealed lock body with special protective cap and drainage channels to protect the locking mechanism from water and dirt
- Shock-absorbing plastic casing protects sensitive surfaces
- Double bolted
- Precision pin cylinder
- Paracentric key profile for increased protection against manipulation

- Inner components made from rust-free materials
- Self-locking: lock without the key by pushing down the shackle

Use and application

- Security for items/goods of medium value or where there is an average risk of theft
- For securing chains, doors, gates, cupboards, lockers, tool boxes, cellar windows, sheds, switch boxes, etc.
