Combiflex™ TripMate 180 olive green

PROTECTION FOR YOUR BIKE EQUIPMENT

The problem solver for your motorbike equipment: whether motorbike jacket with back protector, helmet or rear bag - with the Combiflex TripMate 180 you can secure your valuables directly on your bike.

Especially when travelling, there is often no quick way to securely fasten bulky equipment during short stops. This is exactly where the compact lock with combination code comes in: pull the cable to the desired length, thread it through your jacket sleeve, hook in the carabiner and set the code - and your equipment is protected against theft in no time at all, without the need for a key.

With a cable length of up to 180 cm, the spiral cable offers you plenty of scope when securing - ideal for several objects at the same time. It automatically retracts compactly after use.

As part of the Combiflex family, the TripMate combines the usual ease of use with a significantly larger radius of action - perfect when classic micro locks reach their limits.

Whether on a motorbike, bike, pram or when travelling: the TripMate fits in any pocket or is simply attached to the carabiner and is always ready to hand. Ideal for short stops and situations with a low risk of theft - always with you when you need a flexible lock quickly.

Technologies

- All-round talent: flexible portable protection for travel, everyday life or the garden – also secures bulky equipment such as motorbike helmets or motorbike jackets against casual theft

Combiflex™ TripMate 180 olive green

- Compact combined system: snap hook with spiral cable lock and integrated numerical code for flexible securing of a wide range of items
- Anti-theft protection: protection against opportunist theft during short stops or as additional security
- Extra-long range: coiled cable with a length of up to 180 cm for a large operating radius when locking up your property
- Automatic retraction: spiral cable winds itself up again after use to save space
- 5 mm thick cable: robust quality cable with steel core for reliable removal protection
- 3-digit numerical code: individually adjustable number combination with up to 1,000 combinations – can be flexibly reset
- Easy to transport: compact and lightweight – fits in a jersey, jacket or trouser pocket or can be attached to a belt, bag or bike thanks to the snap hook
- Weatherproof design: resistant materials for reliable function in wind and weather
- Paint-friendly coating: plastic-coated cable protects the frame and surfaces from scratches

Use and application

- Motorbike and scooter: large range for bulky equipment – for securing helmet or motorbike jacket with protector directly to the machine
- At home and on the go: always with you in everyday family life – ideal protection for prams and pushchairs in front of the bakery, supermarket or at the zoo
- Patio and garden: practical protection for garden furniture, tools, barbecue or balcony furniture
- Travel and holidays: for short-term securing of luggage, trolleys or rucksacks at the airport, train station or in holiday accommodation
- Sports and outdoor: for securing sports equipment such as skis, racing bikes, snowboards, SUP boards or helmets during breaks and short stops
- Everyday life and work: for securing bags and rucksacks in public spaces, at trade fairs or at the workplace
