Adaptor Chain YARNIT™ 100 denim blue

TEXTILE STYLE FOR THE FRAME LOCK

Are you already using a frame lock and want to connect your e-bike or bike flexibly to fixed objects? In these situations, the Adaptor Chain YARNIT adds flexible connection options and urban style to your frame lock.

The textile plug-in chain brings the characteristic DNA of our YARNIT family to your bike: distinctive knitted structure, pleasant feel and quiet, rattle-free transport. Lightweight, flexible and easily shaped, it wraps around bicycle stands, lanterns or railings like a textile rope - even in hard-to-reach places.

Proven ABUS security technology lies beneath the stylish surface: a robust steel cable combined with a hardened steel chain ensures reliable protection in everyday use. The coated loop ring makes it easier to connect and also protects the frame from scratches.

The Adaptor Chain YARNIT works without any additional key: simply insert the end piece into the frame lock and lock as usual. This turns a simple immobiliser into a flexible connection solution in no time at all - lighter than classic plug-in chains, easy to handle and made for modern mobility.

Technologies

- Clever combination: textile plug-in chain with stylish knitted structure for lower weight, rattle-free transport and flexible extension of frame locks
- Practical: plug-in chain to supplement standard frame locks and the ABUS Alarmbox 2.0 for flexible connection to fixed objects
- Coated: coated loop ring allows the chain to be fed through easily and protects the bike frame from damage to the

Adaptor Chain YARNIT™ 100 denim blue

paintwork
- Simple: no additional key required – the plug-in end is inserted into the frame lock, which is locked with the existing key
- Convenient: round 360° steel bolt engages reliably from any position – for greater convenience when locking up the bike, even in the dark
- Tried and tested: has been intensively tested for resistance to typical attempts to break it open – using tools such as bolt cutters, hammers or pliers
- Stylish: textile fibres in different colour shades are woven around the lock chain, creating a fashionable, rattle-free and strong knitted structure
- Secure: textile elements are interspersed with a steel cable –- together with the hardened steel chain inside the lock, this connecting chain offers solid protection against attacks with various tools
- Lightweight: perfect for anyone who wants a lightweight plug-in chain
- Resistant: with an overall diameter of 24 mm, this connection solution in combination with a frame lock offers good protection when there is a medium risk of theft
- Gentle on paintwork: the textile surface prevents scratches on the bike frame

Use and application

- Suitable addition: perfect for bike and e-bike riders who want to expand their frame lock and flexibly connect their bike to fixed objects – ideal for everyday use, city life and commuting
- Flexible handling: highly flexible chain with textile sheath can be easily shaped as required and enables convenient connection to bulky objects – even in hard-to-reach places
- Solid theft protection: recommended for securing good bikes with a frame lock as a useful addition to the immobiliser
- Convenient transport: no rattling thanks to the textile coating – can be rolled up and stowed in a rucksack or handbag to save space
- Different lengths: the frame lock chain is available in different lengths – the longer the lock chain, the greater the locking range
