Cavo 3410C/85

LIGHT CABLE LOCK WITH COMBINATION CODE

The Cavo 3410C/85 impresses with a flexible steel cable and keyless convenience thanks to a combination lock.

The lightweight cable lock is ideal for kids, teenagers and occasional riders. With a low risk of theft, it can be used to secure bikes and accessories during short stops in everyday life, whether in front of the bakery, at school or at a kiosk. The plastic coating also reliably protects the bike frame from damage to the paintwork. Thanks to the 4-digit, self-adjustable combination code, no key is required and the lock is easy to use. With a length of 85 cm, the cable lock offers sufficient flexibility for connecting to bike racks or other objects.

Technologies

- 10 mm thick steel cable (incl. coating): robust cable for protection during short stops
- 85 cm cable length: convenient range for connecting to fixed objects
- Paint-friendly coating: plastic-coated cable protects the bike frame and surfaces from scratches
- 4-digit numerical code: individually adjustable number combination with 10,000 possible combinations – can be reset individually
- Lightweight and flexible: compact cable lock for easy handling and uncomplicated transport

Use and application

- Suitable for short-term protection: for short stops with a low risk of theft, for example, in front of a bakery, kiosk, parcel station or on the playground
- ABUS security level 3: recommended for securing inexpensive bikes and children's bikes
- Flexible connection: the lightweight steel cable makes it easy to connect to bike stands, railings or even in tight
