Cavo 1406K/55 green

COMPACT CABLE LOCK FOR KIDS BIKES

The Cavo 1406K/55 offers flexible basic protection for kids bikes, balance bikes and accessories during short stops.

The ABUS Cavo 1406K/55 is a compact cable lock for kids bikes, balance bikes and securing accessories. The flexible steel cable with plastic coating protects sensitive surfaces from scratches and damage to paintwork. The practical automatic cylinder with reversible key enables simple and convenient operation. Thanks to its compact length of 55 cm and low weight, the lock is particularly suitable for kids and occasional riders. Ideal for short stops at the bakery, in front of the library or on the way to school. Available in different colours for a child-friendly look.

Technologies

- 6 mm thick steel cable (incl. coating): robust cable for good protection during short stops
- 55 cm cable length: compact length for quick connection and easy transport
- Paint-friendly coating: plastic-coated cable protects the bike frame and surfaces from scratches
- Automatic locking: lock locks automatically when the end piece is inserted – convenient locking without a key
- Two reversible keys included: key can be used regardless of the insertion direction – for quick and convenient opening
- Lightweight and compact: handy cable lock for easy handling and uncomplicated transport

Use and application

- Suitable for short-term protection: for very short stops with a low risk of theft, such as in front of a kindergarten, playground or ice cream parlour
- ABUS security level 1: recommended for securing children's bikes, scooters, balance bikes or very inexpensive bikes
