GRANIT™ Detecto XPlus™ 8077 yellow 12KS120 black loop

GREATER MULTI-PROTECTION

The ABUS GRANIT™ Detecto XPlus 8077 yellow 12KS Black Loop Lock-Chain Combination offers an innovative alarm system alongside highly resistant locking technology.

The 8077 Yellow 12KS120 Black Loop puts many obstacles in the way of thieves. Bolts of up to 13.5mm made from specially hardened steel. A chain to attach to a fixed object. A tamper-proof ABUS XPlus Cylinder. An alarm unit that emits a warning signal, which is audible from a considerable distance, if there is an unauthorised attempt to access your motorbike.

Once activated, the GRANIT™ Detecto XPlus 8077 yellow 12KS Black Loop displays a red flashing LED light to warn thieves to leave your bike alone. And if you ever need to lock up more quickly or have no suitable object to attach to, you can also use the lock on its own as a classic brake disc lock.

Technologies

- 15/32" strong loop chain with fabric sleeve to prevent damage to the motorbike‘s paintwork
- The chain, the 17/32" bolts, the housing and the structural parts of the locking mechanism are manufactured from specially hardened steel
- 3D Position Detection – detects vibrations and the smallest movements
- Alarm at a volume of at least 100 dB for 15 seconds, followed by automatic reactivation
- The lock can be transported in a closed position without activating the alarm
- Acoustic and optical signals (multi-coloured LED) display the battery and activity status
- ABUS XPlus Cylinder for extremely high protection against manipulation such as picking

GRANIT™ Detecto XPlus™ 8077 yellow 12KS120 black loop

- Two keys included in the scope of delivery
- ABUS Code Card for duplicate and replacement keys
- Two standard AAA batteries to supply the electronic unit are included in the scope of delivery

Use and application

- Very good protection against high risk of theft
- Recommended for securing high-value motorbikes

Tips

- You can order several one-key-fits-all locks. That means you can use a single key or closure in conjunction with multiple locks
- Lock-chain combinations are a good solution for attaching motorbikes to fixed objects
- The loop chain enables optimal utilisation of the chain length
- 2 in 1 lock – the lock can also be used separately from the chain
- The chain is specially adapted to the Detecto 8077 Brake Disc Lock and cannot be combined with other locks
- Please note that the lock-chain combinations do not necessarily fit the same brake disc as the individual lock
- To limit the possibility of brutal attempts to smash the chain, it is best not to place it on or near the ground
- When the alarm is activated, the red blinking light also has a deterrent effect

Technical data - GRANIT™ Detecto XPlus™ 8077 yellow 12KS120 black loop

Brake disc lock bolt	17/32 inch
Brake disc lock inner clearance	1 49/64 inch
Locking type	key
Weight [lbs]	11.46 lbs
chain length	47 1/4 inch
chain thickness	15/32 inch
color of facets	yellow, black
design color	yellow/black
type of cylinder	XPlus cylinder
EAN	4003318190056
