Diskus® 24RK/70

TRUST THE ORIGINAL

For securing high-value items in high-risk scenarios, rely on our Diskus® 24RK padlock.

Its distinctive round design with a narrow shackle opening, coupled with a robust welding seam, ensures uncompromising security.

The Diskus® 24RK padlock provides protection for your valuable possessions stored behind barriers, gates, doors, basement windows, sheds, toolboxes, and more. Constructed from stainless steel inside and out, with a shackle made of specially hardened steel, it offers exceptional resistance against picking attempts.

Every Diskus® 24RK is meticulously hand-welded at our production facility in Germany, ensuring that the two stainless steel housing pieces remain firmly united. This prevents easy separation and reinforces the padlock's ability to safeguard your valuables effectively. The package includes two keys for your convenience.

Opt for the RK (re-keyable) variant, allowing retailers to easily adapt the Diskus® to key codes for existing Diskus locks. For enhanced security, consider complementing the Diskus® with our 140 hasp. Trust in the original Diskus® 24RK for top-tier protection.

Technologies

- Precision pin cylinder, can be rekeyed to match an existing key
- Stainless steel - inside and outside
- Hardened steel shackle

Diskus® 24RK/70

- Original Diskus® design: 360° protection
- Additional protection against sawing
- Sophisticated Diskus® welded seam for highest breaking resistance
- Key retaining: locking only with the key (lock retains key until locked)
- RK: Cylinder can be taken out and re-keyed to match an existing key
- Made in Germany
- Incl. two keys

Use and application

- To secure valuables/goods of greater value or at a high risk of theft
- To secure doors, gates, cupboards, tool boxes, cellar windows, sheds, switchboards, bars, etc.
- Ideally used with ABUS Diskus® Hasp 140: virtually impossible to attack shackle

Variants

- Size: 2 3/4
