

76/40CAB20 yellow

THE SAFETY LOCK

The ABUS 76 Series has an 8-pin cylinder and is available with more than 200,000 true key differs, making it the first safety padlock to offer this.

The protected keyway eliminates cross-keying and reduces the risk of employee injury, company liability, and code violations. Available in a variety of colors and shackle options. These padlocks also meet OSHA standard lockout/tagout guidelines, and its protected keyway eliminates cross-keying, reducing risk for employees.

Technologies

- Body and shackle insulated
- Solid aluminum core: Lightweight and durable
- Large, extremely breaking resistant key with V-shape cuts ensures high precision
- Automatic locking for user convenience
- 9 different shackle options
- One key according to lockout requirement: one worker, one lock, one key
- Key-retaining: Lock retains key until locked

Use and application

- Safety at work

Variants

- 10 colors: red, yellow, green, blue, orange, purple, white, black, grey, brown
- Shackle versions in different lengths: steel, sheathed steel, stainless steel or non-conductive plastic

76/40CAB20 yellow

- Cable versions with flexible wire instead of rigid shackle: stainless steel cable with plastic coating, 8 inches or 16 inches long
